Courses You Should Expect on Sikhona Education

Cultural & Contextual Courses (Africa-Focused)

- African History, Innovation & Indigenous Technology
- Tech for Development: Solving African Problems with Innovation
- Understanding African Markets & Business Environment
- Digital Transformation in Africa

Compulsory Orientation Courses

- Understanding the Global and African Tech Landscape
- Why Digital Skills are Critical in Today's World
- How to Learn Effectively in a Digital Environment
- Personal Mindset for Tech Success
- Navigating the Sikhona Platform, Course Rules & Certification Process

Before you begin any course on Sikhona, you must first complete the Orientation Module.

This is your onboarding experience—where we guide you through the purpose of the platform, teach you how to learn effectively, introduce platform rules, and show you how to succeed.

Think of it as your digital compass—it prepares your mind, sets expectations, and unlocks access to the main courses."
